

## Pet's Staying Conditions

### GENERAL RULES AND CONSENT

#### 1. Admission

The accommodation reserves the right of non-admission of pets / companions. Pets that comply with and respect conditions of hygiene and civility will be admitted, and must be properly vaccinated, with a chip and accompanied by their documentation. For the sake of the logistics and comfort of all guests, the accommodation reserves the right to limit the occupancy of pets to 4 rooms, equipped with better conditions for their reception. If the animals are agitated, aggressive or unable to remain silent, the Hotel reserves the right to request their departure.

#### 2. Fees and Responsibility

An additional fee will be charged per pet, per night to be paid at check-in in the amount of € 25. Any damages caused to the accommodation and property will be the responsibility of their owners.

#### 3. Accesses and Circulation Areas

The movement or stay of pets is prohibited in the restaurant area (or breakfast room) and public areas. Pets are welcome in the outdoor areas, terraces and living room as long as they are permanently accompanied with the owner, and must always circulate on a leash. The outdoor garden and vegetable areas are closed off to people and animals. The cleaning of solid and liquid waste is the responsibility of guests that should be accompanied with all the necessary utensils for the stay of the animal (such as food and hygiene materials).

#### 4. Staying in Rooms

We recommend that pets do not stay in the rooms for long periods, being expressly forbidden to remain alone in the rooms after 9 pm and for more than 2 hours, in particular during the housekeeping or other service provided by the accommodation.
